What will your consultation include?

AVBS Consultations

A behaviour consultation can be held at our McLaren Vale Clinic or in your home (travel fees may apply).

- An individual assessment of the problem/s.
- A discussion to ensure you understand your pet's behaviour.
- A scientific (evidence-based) treatment plan to modify and manage your pet's behaviour.
- Relevant supporting handouts.
- A detailed written report which will also be sent to your referring vet and/or trainer.
- Regular email & phone support by our reception staff.
- All advice will encompass the most recent behaviour modification techniques, with particular emphasis on reward-based training.

AVBS has the benefit of a vet and trainer working together, providing a complete behaviour service.
